

MORNING APPEAL

Official Paper of Ormsby County

Wednesday, January 26 1887.

By a Woman.
Providence sends the wicked wind
That blows our skirts knee-high;
But God is good, and He sends the dust
That blows in the bad man's eye.
Judge.

Brains Appreciated.
The New York World is of the opinion that the grumbling Knights of Labor who object to paying Grand Master Workman Powderly a salary of \$5,000 a year, do not appreciate the market value of brains. To back up this opinion that journal says: We would be willing to pay Mr. Powderly \$5,000 a year to devote his services exclusively to the World.

Should Pass.
The bill to pay ex-Lieutenant Governor Laughton the back salary during the time he was deprived of the office by Adams is a good bill and while every Republican ought to vote for it, we believe that many Democrats will recognize the justice of the claim and give it their support.

Struck It Rich.
Yesterday Charlie Bray received some specimens from his mine in the Wellington District. A ledge has been struck there three feet wide that carries free gold in bunches and the miners are wild over it. It is by all odds the richest find ever made in that section.

ALL MORTS.

—Wizard Oil at Geo. Thaxter's.

—Mrs. Judge Leonard gave a pleasant reception last evening.

—Ed. Hamilton and Jack Farlong will have a shooting match at the track on Sunday.

—Mrs. James Ward, wife of the Humboldt Assemblyman, arrived in the city yesterday.

—Mrs. Richard Thomas, wife of the Assistant Clerk of the House, arrived from San Francisco yesterday.

—Hugh Mohan, who brought the vegetable bouquet from Washoe, has been appointed custodian of the same after promising not to roast the Irish potatoes.

—Let it be positively understood that Schneider & Simas, the photographers opposite the Mint, are the artists selected to make the official State group for 1887.

—Ayer's Sarsaparilla, being highly concentrated, requires a smaller dose, and is more effective, dose for dose, than any other blood medicine. It is the cheapest, because the best. Quality and not quantity should be considered.

—Ayer's Pills cure constipation, improve the appetite, promote digestion, restore healthy action, and regulate every function. They are pleasant to take, gentle in their operation, yet thorough, searching, and powerful in subduing disease.

—The APPEAL acknowledges the receipt of a complimentary ticket to the Inaugural Ball at Sacramento, which came off January 17th. The ticket was not received until yesterday, and for this reason the sylph-like figure of the editor was not seen in the halls of gayety and

Convict Labor Abolished.

Senator Maute's bill to repeal Section 1428 empowering the State Prison Commission to contract for convict labor passed the Senate yesterday unanimously. If the House passes the bill it will be a strong card for the Republican party of Nevada. The competition of convict labor has always been looked upon unfavorably by the free workmen and mechanics of the State and many appeals have been made from that source to abolish the system by which convict labor could be made to compete with free labor. The Republican party will be the first to heed these appeals and Senator Maute of Nye did excellent work in introducing this bill.

An Agricultural Society.

John Sweeney is hard at work pressing a bill to provide the Ormsby District with an Agricultural Fair. There is a Governor now at the helm who takes an interest in having Ormsby county have a fair that will be a credit to it, and is enthusiastically seconding the scheme. With two fairs in the Fall in this section of the State, a good many more exhibits will come in, as there will be a chance for horsemen to take a shy at more purses, and cattle breeders at more prizes. Ormsby is becoming an agricultural county and should have an annual exhibit as big as Reno.

Is White Sage Land Productive?

The Geneva Courier says: There are hundreds of acres of fine land in Carson Valley which can only be irrigated by artesian wells or reservoirs. The soil is very rich, of light color, and annually produces a heavy crop of white sagebrush, which is eagerly devoured by stock in winter. The sage produced on this land is very nutritious, and it is believed that the land will yield excellent crops, though, so far as we can learn the experiment has never been tried. Can the Nevada press give some light on the subject?

WHY HE LEFT.

Flight of a Noted Journalist

On Sunday last Jim Townsend, the journalist, made a sudden exit from Carson and without any previous warning migrated to Hawthorne where he has extensive mining interest. Just before the session Mr. Townsend leased the Index as he believed that while it was not considered a specially desirable newspaper property it might be made to pay out passably well during the session. It did not come up to his expectations, however, and so he dropped it and moved on. The reasons for his leaving are best expressed by the original and imaginative journalist himself. A few days before he left he expressed himself as follows to the writer:

"Dye 'spose I'm going to wear my life out running such a sickly sheet and gathering wrinkles on my brow until I look like a blasted second hand accordion? Why, hang it, I'd rather be a bald-headed cyprian in a second class Mormon settlement than to depend any longer upon such a precarious means of sustenance."

The APPEAL truthfully chronicles these words that the wandering knights of the quill who contemplate coming to Carson to engage in newspaper enterprises may know exactly what they can expect. We regret to lose the genial presence of Mr. Townsend and his running fusillade of quaint and pointed sayings that he strewn along the sidewalk as only Jim can strew.

MIND READING.

The Man Who is Making a Sensation in Carson.

For the past ten days Joseph Reese, a mind reader, from Berlin, Germany, has been startling people with his wonderful exhibitions of mind reading. He seems able to tell everybody and anybody all about their lives past, present and future, and some of his work is indeed startling. He is very direct and satisfactory in his work and does not need to wait for certain conditions. He is always ready to give tests. The writer called upon Mr. Reese the other day at the Ormsby. He began work at once by saying:

"Here are some pieces of paper. When I leave the room you write your mother's name, the year you were born, the place and the name of any one you have ever known, also the number of your watch."

When Reese left the room his request was complied with and the pieces of paper folded up in the smallest possible compass. In accordance with another request the reporter pressed the little balls of paper successively against Reese's forehead with the point of his index finger, and instantly he gave the contents of the papers correctly.

He leaves for Virginia City in the morning but will return in a couple of weeks.

Grismer Davies.

A crowded house greeted the return to Carson of the favorites, Jos. Grismer, and Phæbe Davies, who presented here for the first time, Mortimer Murdoch's excellent picture of English life, "A Hoop of Gold," a most exciting melodrama, replete with comedy, pathos and startling situations. The drama was placed on the stage in a manner that does credit to Mr. Grismer's reputation as a stage manager. As "Scotty," the jockey, Mr. Grismer has the leading part, in which he shows his great versatility, it being a different role from which we have been accustomed to see him in, and as a light comedian he is capital. The Field of Honor, or Ruth's Devotion, this evening.

A Decided Improvement.

The Sacramento Record Union says: "The Southern Pacific Company is having the steps of all its passenger coaches altered as rapidly as possible, so as to make it easier for passengers, and especially ladies, to get upon the car platforms. To that end hereafter there will be four steps to be ascended and descended, instead of three, and the lower one will be so near the ground that even ladies in tight "pull backs" will be able to reach it without assistance. Sick people will find the change a great convenience, and the "last man" will be in less danger of failure to secure a good footing when he makes his jump to get on board."
